For example, if a company has 100male and 60 female employees, the number of persons in each group is 25 for male and 15 for female respectively. In this case, M1 refers to the income of the 13th the 8th female employee from the lowest group, whereas M2 refers to the income of the 38th male and the 23rd female male and employee from the second lowest group, etc.
