Source : Department of Personnel, Ministry of Finance.

Explanation : 1.This data does not include the chairman and general manager.

2.By equally dividing the number of employees into four groups, M1 to M4 refer to the median monthly income of each of the four groups in ascending order. For example, if a company has 100 male and 60 female employees, the number of persons in each group is 25 for male and 15 for female respectively. In this case, M1 refers to the income of the 13th male and the 8th female employee from the lowest group, whereas M2 refers to the income of the 38th male and the 23rd female employee from the second lowest group, etc.
